Oh Miss Jill 2017

## How to assemble your bunting

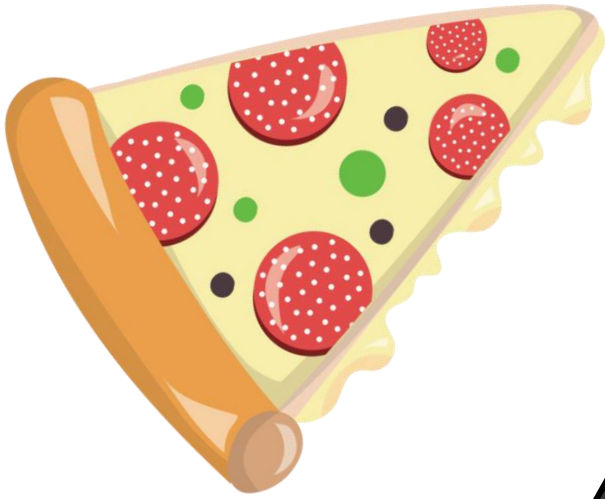

Directions: Cut the bunting pieces out, cutting off all the white edges. Laminate for durability. Lay out the bunting pieces face down in order (right to left so the letters will be in the correct order when you flip the bunting over.) Tape your ribbon, yarn or string across the back of each bunting piece. Curling ribbon works well for this step.

### How to assemble your sign

Cut the sign pieces by trimming off the white edges but leave one white edge in the middle, as shown in the picture. Use a glue stick apply glue to the white edge.

Attach the two pieces together covering the white edge. Allow it to dry then laminate for durability.
